

Shower Inspirations

 **MOEN**
Buy it for looks. Buy it for life.®

Uniquely Yours

Personalizing your shower is more than selecting a trim style and finish. Customizing your shower with functionality that is perfectly suited to your individual needs and desires is the best way to create a shower that you'll love.

As a leader in the industry, Moen offers nearly any option you can imagine – each backed by a solid reputation for quality and performance. Plus, you'll find many innovations that will dramatically change your showering experience.

Use the shower examples shown in this guide to get inspired as you plan your space. Then work with your showroom consultant to identify the exact options that will turn your dream design into your showcase shower.

ioDIGITAL™ The Ultimate Satisfaction

You never settle for less than the best, so you're always in search of extraordinary products and technologies that match your high expectations and uncompromising standards. Add amenities to your bath that make it easy to get a premium experience day after day.

Get This Experience.

UPGRADE TO:

ioDIGITAL Remote Control (A340)
Turn on your spa and choose a preset experience you have stored in memory – from across the room or while still in bed. Works up to 30 feet away.

FEATURED PRODUCT:
ioDIGITAL™ Vertical Spa

Insist on the Moen® ioDIGITAL Vertical Spa for precision and personalization that no traditional vertical spa can match. With the ability to manage up to four vertical spa spray outlets and store four personal settings into memory, you're in total control. The ioDIGITAL Vertical Spa controller features an LCD command screen that displays current temperature and active water spray outlets, making it easy to operate at a glance. There's even a pause feature that interrupts the flow of your shower while you shampoo or shave to conserve water.

Relaxation Station

Unwind from your hectic schedule or cool down from a strenuous workout. Step in, wash away your stress, and let your shower soothe your body as well as your soul.

To turn your shower into your everyday escape, consider incorporating a rainshower. The wide spray face produces a soft, drenching stream that has a relaxing effect. For added indulgence, mount your rainshower from the ceiling.

Get This Experience.

PRODUCTS SHOWN:

- Valve: **ExactTemp® 3/4" Vertical Spa Valves (3600 [3] + 3371)**
- Trim: **Rainshower Showerhead, Hand Shower and Body Sprays (275BN)**

UPGRADE TO:

Velocity™ Multi-Function Rainshower (6320)

Get two refreshing experiences from one showerhead. Flip a lever to go from a soothing rainshower with 100 spray nozzles to a 30-nozzle concentrated rinse. Velocity offers the luxurious sensation of natural rain while still being able to rinse the shampoo out of your hair. Plus, Velocity uses Immersion Rainshower Technology to enhance the experience by creating three times more spray power than most rainshowers.

RAIN

RINSE

FEATURED TECHNOLOGY:

Immersion® Rainshower Technology

Immersion Rainshower Technology provides a more satisfying experience by using self-pressurizing channels in the body of the showerhead to concentrate the force of your water supply. In turn, this advanced design delivers up to three times the spray power compared to gravity-fed rainshowers that often produce a weak, drooping spray. With Immersion Rainshower Technology, you get uniform pressure across the entire showerhead and an enhanced, rain-drenching effect.

For even more spray power, consider the Velocity™ Multi-Function Rainshower.*

*See inside flap for more details.

The Home Spa

You deserve a little more pampering, a little more luxury, a little more often. Treat yourself to an indulgent spa-like experience every time you step into the shower.

Install a vertical spa to transform your shower into an indulgent event. Add spray outlets such as a hand shower and body sprays on multiple shower walls to envelop any, or every, inch of your body in a vigorous flow of water. Truly blissful.

PRODUCTS SHOWN:	
Valve:	ExactTemp 3/4" Vertical Spa Valves (3600 [2] + 3371)
Trim:	Rainshower Showerhead and Hand Shower (270ORB)

UPGRADE TO:

Velocity™ Multi-Function Rainshower (6320)

Get two refreshing experiences from one showerhead. Flip a lever to go from a soothing rainshower with 100 spray nozzles to a 30-nozzle concentrated rinse.

Body Sprays

Pivoting body sprays can direct a constant, forceful flow of water exactly where you want so you can achieve maximum coverage.

PRODUCTS SHOWN:

Valve:	ExactTemp 3/4" vertical spa valves (3600 [3] + 3371)
Trim:	Rainshower Showerhead, Hand Shower and Body Sprays (275)

FEATURED PRODUCT:

ExactTemp® 3/4" Thermostatic Valve

ExactTemp offers complete vertical spa design flexibility. With a flow rate more than twice that of standard half-inch valves, you can add up to four different types of spray outlets on up to three walls – and fine-tune the water delivery to each with individual volume controls. Just the way you want it. Not to be overlooked, the thermostatic design dials in a pinpoint temperature, keeping it consistent throughout your shower and day after day. ExactTemp offers an uncommon experience.

Everyone's Favorite Shower

When you select a shower that offers the ability to independently adjust temperature and flow, you can easily accommodate the needs and preferences of the entire family. You can have a strong spray and cool temperature while your spouse can call up a soft, soothing flow with steaming hot water and the kids choose somewhere between. Look for a simple, straightforward design that will make it easy for everyone to find their individual comfort zone.

PRODUCTS SHOWN:

- Valve: **Moentrol Valve (3570)**
Trim: **Single-Function Immersion® Rainshower Technology Showerhead (6310ORB)**
Kingsley™ Moentrol Valve Trim Kit (T3111ORB)

UPGRADE TO:

Moentrol with Integrated 3-Function Transfer Valve and Trim (3330 + T4111ORB*)

This unique valve design allows you to switch between two individual spray outlets or use both at the same time. Add a hand shower or body sprays to your showerhead to create an affordable, custom, multiple-outlet shower experience.

*Trim also available in other suites.

3-Function Transfer Valve and Trim (3372 + T4171ORB*)

Use this valve to customize your shower by including a hand shower or body sprays in addition to a tub/shower combo with a fixed showerhead. The neutral styling works well with any trim suite of your choice to add flexibility.

*Must be used with Posi-Temp® or Moentrol mixing valve.

FEATURED PRODUCT:

Moentrol®

With Moentrol, creating your ideal shower is easy. This sturdy valve offers you volume and temperature control in a pressure-balancing valve design. That means you can adjust temperature and flow to your desires without worries of hot or cold surges from pressure changes created in other areas of the house. And if you're the only one using the shower, Moentrol offers temperature memory so you can return to your setting every day. Pair it with any trim from the M•PACT® Common Valve System, and you've got a shower anyone can appreciate.

Not-So-Standard Shower

Your budget may say basic, but you don't want an ordinary experience. Some days you want a gentle soothing spray. Others call for a targeted massage.

Getting more enjoyment from your shower can be as simple as upgrading your showerhead to a multi-function design that allows you to choose from several different sensations. Moen offers style-neutral models designed to coordinate with any trim style. It's an easy, affordable way to enhance a standard shower.

|--------|----------------------------------|
| Valve: | Posi-Temp® Valve (2510) |
| Trim: | Method™ Shower (T62802NH) |
| | Multi-Function Showerhead (3838) |

UPGRADE TO:

4-Function Hand Shower with Slide Bar (3867)
Get multispray functionality with the added flexibility of a hand shower. Great for washing the dog, bathing kids and cleaning the shower stall.

3-Function Transfer Valve and Trim (3372 + T4171*)
Use this valve to customize your shower by including a hand shower or body sprays in addition to a tub/shower combo with a fixed showerhead. The neutral styling works well with any trim suite of your choice to add flexibility.
*Must be used with Posi-Temp mixing valve.

FEATURED PRODUCT:

Four-Function Showerhead

While other multi-function showerhead designs have you rotate the spray face to change your experience, Moen added a thumb tab to make switching functions easier with wet, soapy hands. A simple improvement that makes a big difference. Choose from a full spray for entire body coverage, a fine spray that's ideal for shaving, an invigorating massage setting or a full spray/massage combo.

Eco Lifestyle

Your shower can be used for more than getting clean. It can promote clean living. All it takes is to be smart about the water you use.

It's possible to conserve water without sacrificing your shower experience. Envi™ Eco-Performance showerheads are certified to meet WaterSense® labeling criteria because they use an enhanced spray pattern that consumes less water without providing a lesser experience. You'll love the savings and the sensation.

Get This Experience.

PRODUCTS SHOWN:

- Valve: Posi-Temp® Valve (2510)
- Trim: Kingsley™ Posi-Temp Valve Trim (T2111)
- Envi Eco-Performance Rainshower (6350)

UPGRADE TO:

Envi 3-Function Massaging Hand Shower (3863BN)

Eco-Performance makes it possible to use less water while maintaining an excellent shower experience. Modified spray formers offer a flow rate that is 30% less than the industry standard, yet deliver a stream that is nearly equivalent to a full-flow showerhead. Plus, Envi offers your choice of a relaxing wide spray setting, an invigorating concentrated spray or a refreshing combination spray.

Moentrol® with Integrated 3-Function Transfer Valve (3330 + T4111BN)

This unique valve design allows you to switch between two individual spray outlets or use both at the same time. Add a hand shower or body sprays to your showerhead to create an affordable, custom, multiple-outlet shower experience.

FEATURED PRODUCT:

Envi™ Eco-Performance Showerheads

Modified spray formers on the Envi showerhead increase the velocity of the water stream to treat users to a full, satisfying experience that feels nearly identical to the standard 2.5 gpm showerhead but uses just 1.75 gpm – a 30% savings. (Envi rainshowers provide similar benefits at just 2.0 gpm.) Plus, the unique placement of nozzles across the spray face was developed using biomimicry, the science of nature-inspired innovations, to ensure full body coverage. Truly satisfying.

Make It Your Own

With a near infinite number of valve and trim style combinations along with a host of showerheads, rainshowers and hand showers that are styled to match the trim you choose, Moen offers you the ultimate flexibility to create just about any shower experience you can imagine. In the look you love. Ask your showroom representative to help you assemble the right products to match your dream.

Moen showerheads, rainshowers and hand showers are styled to coordinate with a wide range of trim options. That gives you the ultimate flexibility to match your preferred spray functionality with the trim that best matches your décor.

Certified Savings

Moen proudly offers a number of showerheads that are certified to meet WaterSense® criteria. These fixed, rainshower and hand shower options use up to 30% less water than industry standard to reduce both water usage and utility bills.

The Moen M-PACT® Common Valve System allows you to easily update the look of your shower – without replacing plumbing behind the wall. Simply remove your old trim and replace with a new style or finish. M-PACT is also featured on select widespread bath faucets, wallmount faucets and Roman tub products.

Selection may vary by location, and certain models and finishes require a special order. For specific product information, call 1-800-BUY-MOEN or visit moen.com to locate a nearby store by zip code.

Although descriptions are believed correct at publication approval, accuracy cannot be guaranteed. Moen reserves the right to make product specification changes from time to time, without notice or obligation, and to change or discontinue models.
