New Composite Sink Care And Cleaning

This following guide will explain how to clean your new Granite sink. Moen Granite sinks were created for a lifetime of easy care. Just follow the simple guidelines listed below.

Cleaning Instructions

Method of Application

Most dirt and stains

Wipe with damp cotton cloth/sponge and soapy water. Towel dry with a cotton cloth. It is recommended that you clean your sink prior to first use.

Stubborn stains and water marks

Method of Application

Wipe with a Mr. Clean® Magic Eraser® and either water or a 50/50 white vinegar and water solution. Towel dry with a cotton cloth.

Difficult Stains

Method of Application

Use a 3M Scotch-Brite™ Heavy Duty Scour Pad with either water, 50/50 white vinegar and water solution or non-abrasive cleaner. Start cleaning in a circular motion with a constant pressure over the area of the stain, rinse thoroughly with water and dry with a cotton cloth. Let dry 5-10 minutes. If stain persists, repeat.

Mr. Clean and Magic Eraser are trademarks of The Procter & Gamble Company. 3M and Scotch-Brite are trademarks of 3M Company.

Preventing Damage
• Avoid exposing a Moen Granite sink to strong chemicals, such as paint removers, oven cleaners, etc. If contact occurs, quickly flush the surface with water. Do not use straight or undiluted bleach solution.
• Run cold water when pouring boiling water into the granite sink.
• Do not use any abrasive cleaning products, scouring pads or steel wool.
• Do not use caustic solutions containing ammonia or alkalis. Examples include certain bath and drain cleaner products.
